

The Taunton Contributory Retirement System is conducting an international and emerging markets equity investment manager search, under the guidance of its investment consultant, Greg McNeillie. The search is for any of the following four product types: international value, international growth, international small cap or emerging markets. The international portions of this search are open to EAFE portfolios only. Managers may submit products for any or all of these searches, but must make those submissions in separate emails. The client has \$300 million in total assets. The current international growth and value products have approximately \$13 million each, while the international small cap and emerging markets products have approximately \$5 million each. All proposals will be evaluated by Mr. McNeillie and recommendations will be made to the Trustees. The final decision will be made by the Trustees.
